To the Board of Directors of the North Central WOCN® Society:

I am a registered nurse currently enrolled in the wound, ostomy and continence education program through the R.B. Turnbull, Jr. MD School of WOC Nursing Education at the Cleveland Clinic. I recently learned that I received the Spring 2019 WOCN® Foundation Scholarship. I am deeply grateful. I returned to nursing two years ago after raising a family, and in quick succession completed my BSN and decided to become a WOC nurse. This scholarship confirms my direction and decisions, and in practical terms will help me complete my Cleveland clinical experience this fall. I am deeply grateful for your support of my work in serving a very special population.

Sincerely,

Margaret Smart, BSN, RN
